## Restore Key Features

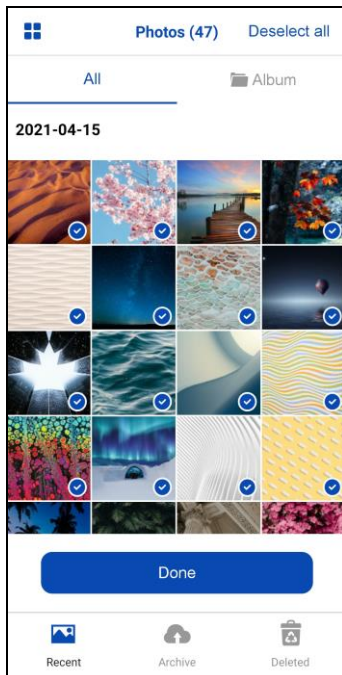

There are new additional features in the Restore main screen of CloudBacko app as well as a newly added Restore file explorer.

On the **Restore main screen**,

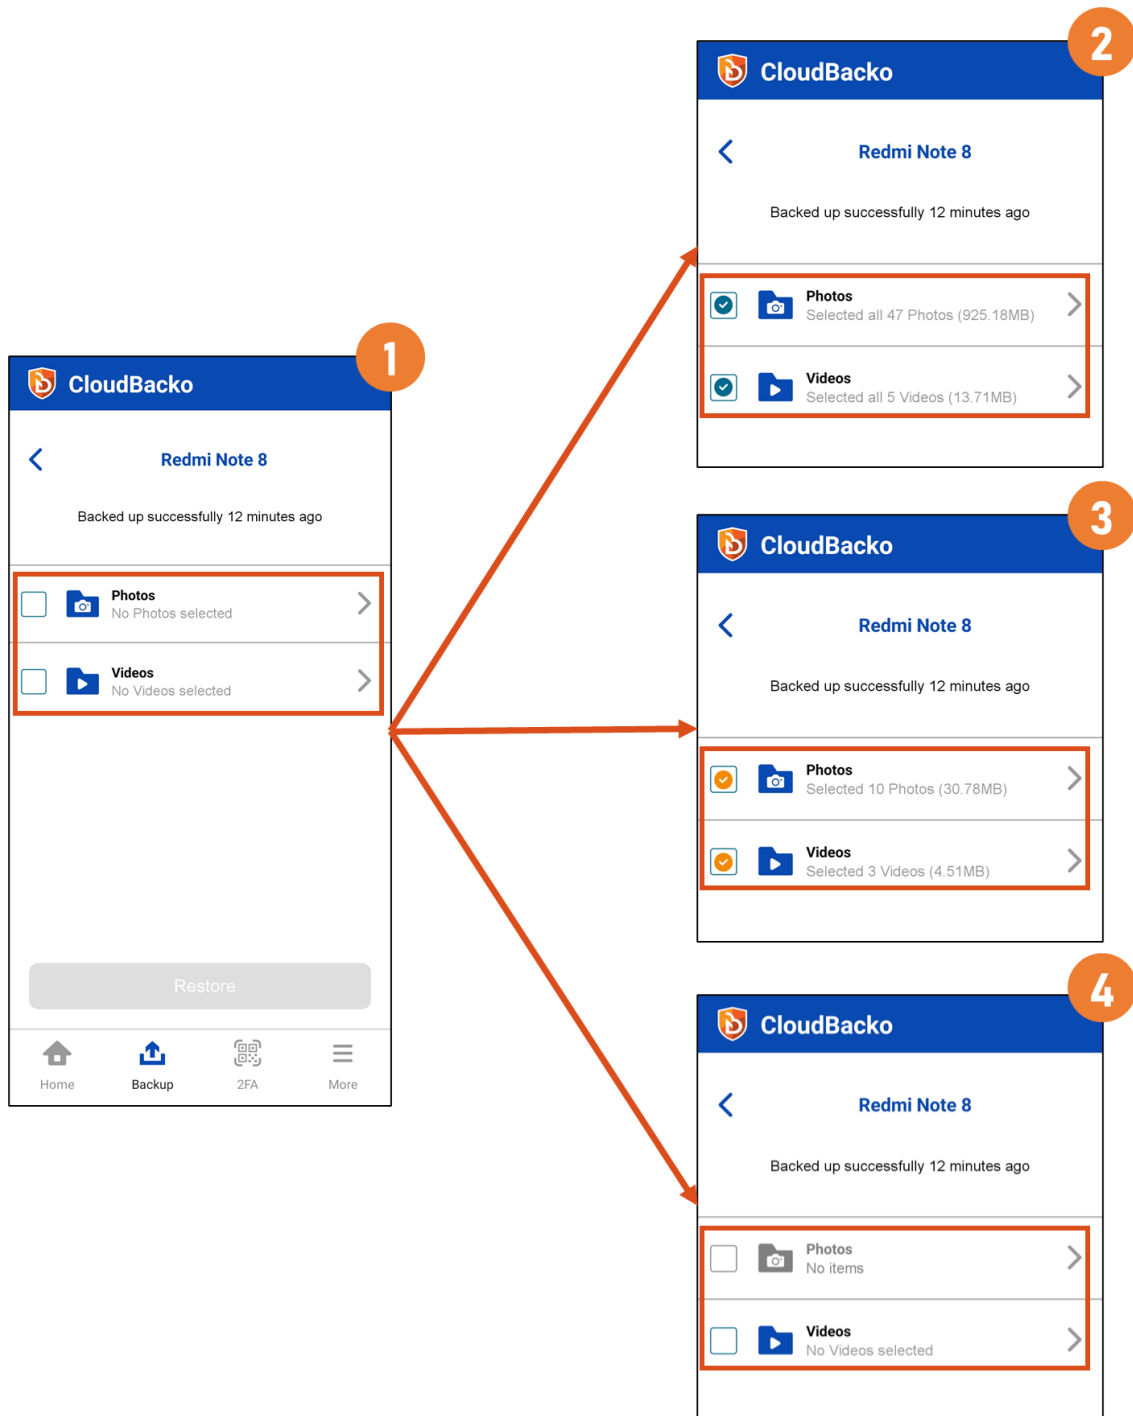

- ▶ you can select or deselect all photos and/or videos.
- ▶ it will show you the total number and size of the photos and/or videos.
- ▶ it also has a checkbox indication if you selected all or a few photos and/or videos for restore.

On the **Restore file explorer**,

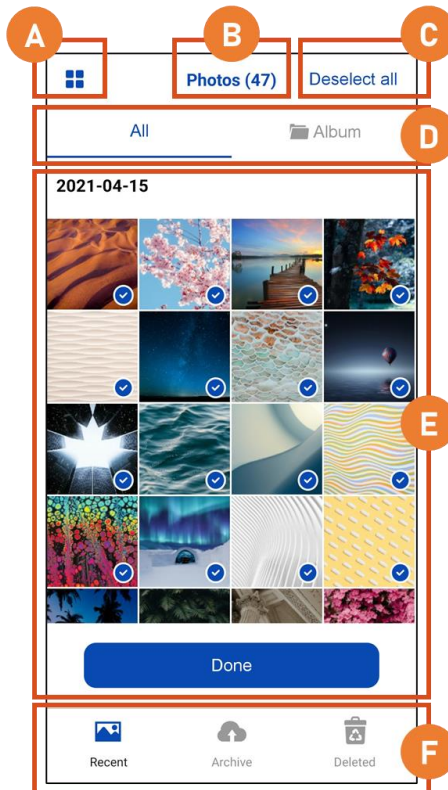

- ▶ you can select/deselect all or a few photos and/or videos from an All/Album view.
- ▶ you can also enlarge the photos and/or videos by enabling/disabling the Enlarge View Toggle located at the upper left corner of the screen.
- ▶ if you want to view and restore the recent, archived, or deleted photos and/or videos, look at the lower part of the screen and from there you will see the different view tabs.

## Restore Main screen

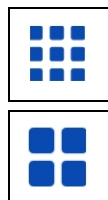

1		<p>This is the main screen of the Restore.</p> <p>In this example there are <u>no selected photos and/or videos</u> for restore yet.</p>
2		<p>This is still the main screen of the Restore but in this example <u>all 47 photos with total size of 952.18MB and 5 videos with total size of 13.71MB</u> are selected for restore.</p> <p>Blue checkbox indicates all photos and/or videos are selected.</p>
3		<p>This is still the main screen of the Restore but in this example <u>only 10 photos with total size of 30.78MB and 3 videos with total size of 4.51MB</u> are selected for restore.</p> <p>Orange checkbox indicates selected photos and/or videos.</p>
4		<p>This is still the main screen of the Restore but in this example there are <u>No items</u> in Photo's folder. This means that there are no backed up photos to restore.</p> <p>Gray folder icon indicates no items in Photos and/or Video's folder.</p>

## Restore File Explorer

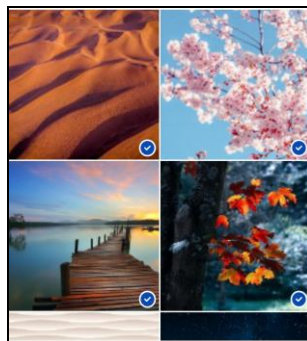

### A – Enlarge View Toggle

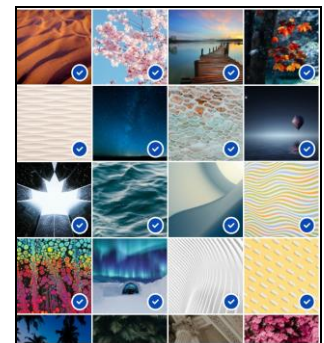

#### Enlarge View – Enabled

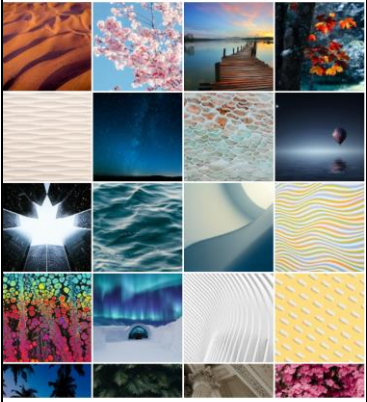

If enlarge view is enabled then the images will be enlarged and there will be only 2 images per row.

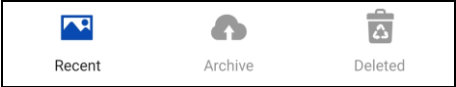

#### Enlarge View – Disabled
